

Good Things are Happening at Northgate!

YOU ASKED FOR IT. WE HEARD YOU!

In the Northgate Area Comprehensive Plan, the community asked for reduced runoff into Thornton Creek, enhanced aquatic habitat and improved absorption of runoff.

**Policy 14*

THE CITY PROPOSES...

With improved water quality, enhanced open space and a plan to improve the health of Thornton Creek, Northgate will become a better steward of our urban environment. It's time to do more for the urban environment by preserving natural assets alongside urban dwellings and streets.

Thornton Creek Action Agenda

The City of Seattle is working with the community to implement key elements of the Thornton Creek Action Agenda. To date, the City has adopted 115 of 131 actions recommended by the Thornton Creek community to improve the health of Thornton Creek. These actions will be implemented or considered in the next five years.

We can continue to improve Thornton Creek through a collaborative, action-oriented approach. We can achieve real environmental and community improvements now while moving forward on the Thornton Creek Action Agenda.

These projects will provide real benefits to the Thornton Creek Watershed by reducing runoff, improving water quality and enhancing the environment for both wildlife and residents.

NEXT STEPS AND PUBLIC INVOLVEMENT OPPORTUNITIES
